MikroTik

Technopedia is a master distributor for mikrotik devices witch provides outing, switching and wireless equipment for all possible uses from the customer location, up to high end data centres. For more info: www.mikrotik.com/products

Products — Premium class home access points

Chateau LTE12 kit

A high-speed, dual-band home access point with 2.4 / 5 GHz dual-chain high power wireless and CAT12 LTE for really fast Internet anywhere, anytime.

Audience LTE6 kit

Stylish tri-band home access point with LTE CAT6 support 300 Mbps Downlink, 50 Mbps Uplink and meshing technology.

Products — MikroTik hEX series

hEX PoE lite

This model supports PoE output on it's Ethernet ports, so you can power other devices.
5x 10/100 Mbps Ethernet ports, 64MB RAM.

hEX

The hEX is a small and powerfull router with Gigabit Ethernet, IPsec acceleration with 256MB RAM, and support for The Dude server package

hEX PoE

his model also has PoE output capability, but includes Gigabit Ethernet ports and an SFP cage with 128MB RAM.

hEX S

hEX S is a six port wired Gigabit router also features an SFP port with PoE output, 256MB RAM and Dude Server package support.

Products   Mikrotik RouterBoard Series

RB2011iL- IN/RM

The RB2011 lite model features a PoE out port, 600 MHz CPU, 64 MB RAM.
(IN) Desktop case Or (RM) Rackmount case.

RB2011UiAS- IN/RM

The U models include more RAM and a USB port.
SFP port for 1.25 Gigabit connectivity,128MB RAM,
(IN) Desktop case Or (RM) Rackmount case.

RB3011UiAS-RM

The RB3011 is a multi port device, our first to be running an ARM architecture CPU with 1GB RAM for higher performance than ever before.

RB4011iGS+RM

Amazingly powerful routers with 10Gigabit ports, SFP+ 10Gbps interface and IPsec hardware acceleration for a great price!

Products   Cloud Core Router Series

CCR1009-7G-1C-1S+ -RM

Tilera 9-core CPU, Gigabit Ethernet, IPsec acceleration combo port, rackmount case with built in dual PSU.
Eight Gigabit Ethernet & Combo ports, SFP+ Port for 10 Gbps connectivity, with 2 GB RAM.
LCD touch screen, smart card slot, microSD slot and dual power supplies built-in for redundancy.

CCR1016-12G -RM

Powerful 16 core rackmount router with Gigabit Ethernet ports, Tilera 16-core CPU, 1.2 GHz per core, 2 GB RAM, Up to 17.8 Million pps throughput in fast Path mode (wire speed), Up to 12 Gbps throughput with RouterOS queue/firewall configuration.

CCR1016-12S-1S+

Powerful 16 core rackmount router with 12 SFP ports and one SFP+ for 10 Gigabit connectivity.
Tilera 16-core CPU, 1.2 GHz per core, 2 GB RAM, Dual power supplies built-in for redundancy with LCD touch screen,

CCR1036-12G-4S

Carrier grade 36 core rackmount router with 12 GB Ethernet ports and four SFP ports for optical fiber connectivity.
Tilera 36-core CPU, 1.2 GHz per core, 4 GB RAM
Up to 24 Mpps throughput in Fast Path mode (wire speed)

mimosa

by Airspan

TECHNOPEDIA is a master distributor for Mimosa Network, a division of Airspan. It's the global technology leader in wireless broadband solutions, enabling service providers to connect dense, urban, and hard-to-reach rural homes at a fraction of the cost of fiber. Mimosa access, backhaul, and client solutions are deployed in a hybrid-fiber-wireless architecture, and engineered for both point-to-point and point-to-multipoint connections, across a variety of diverse applications including residential and business high-speed internet access, surveillance, public safety, education, and hospitality networking.

Point-to-Point Backhaul Solutions

Delivering breakthrough speeds and superior reliability. Get fiber-like, gigabit speeds for a fraction of the cost. Deploy wireless links in just a matter of hours.

Point-to-Multipoint Access Solutions

Whether you are a service provider, an enterprise IT manager or a network system integrator, Mimosa is the price/performance leader. Our equipment delivers blazingly fast connectivity for any point-to-multipoint (PTMP) deployment.

Connecting Everyone, Everywhere

UBIQUITI
NETWORKS

Ubiquiti's UniFi line offers a rich portfolio of indoor and outdoor UniFi wireless APs, maneged switches, security gateways, VoIP phones, cameras and management software.

The variety of products available within Ubiquiti's UniFi line makes it possible to design efficient wireless solutions for a wide array of usage scenarios.

UniFi Controller provides an end-to-end, budget-friendly and highly scalable Wi-Fi management tool for environments ranging from mini-branch offices to hotels, schools, arenas and multi-site enterprise networks.
